I really love the way u teach in the revision class, u discuss and analyze the question with us and teach us how to answer those question, it's help me better understand about the question requirement. Your mind map also very helpful, I just read through your mind map and able to catch up most of the syllabus in the short period. Your tips also very very accurate, I also surprise when I saw the exam question. Lastly, you are very kind, even though I just sign up for revision class, but you also help me mark my pass year answer and give me feedback.
